Rolls of Film !

AUTO BAND-IT™

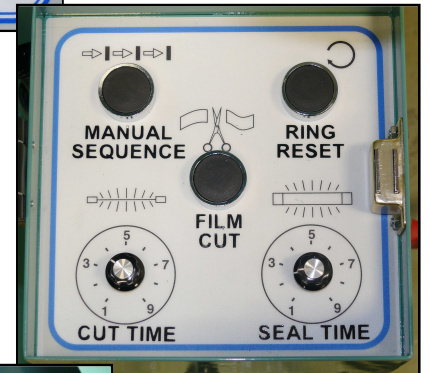

HIGHLIGHT INDUSTRIES, INC.

Due to Highlight's philosophy of "Progressive Improvements", pictures may not depict most current design(s)/function(s).

1 Easy to use main controls

2 Additional controls

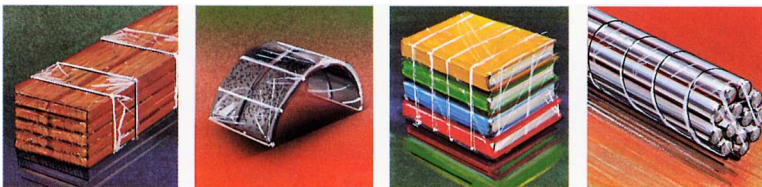

Proven Success

The Highlight Revolver Auto Band-It™ is the evolution of the Highlight Stretch Band-It™ that has been successfully stretch bundling hundreds of thousands of products since 1981!

The Revolver Auto Band-It™ will quickly, securely and economically unitize your product in seconds. You select the number of wraps per band, or choose continuous wrapping for full film coverage on your product. The film is heat sealed at the end of the wrapping process for extra security. The film's stretch level is fully adjustable to match your specific load holding requirements.

The Revolver Auto Band-It™ can be integrated with conveyors or other equipment to maximize your productivity.

A few of the many applications of the Revolver Auto Band-It™.

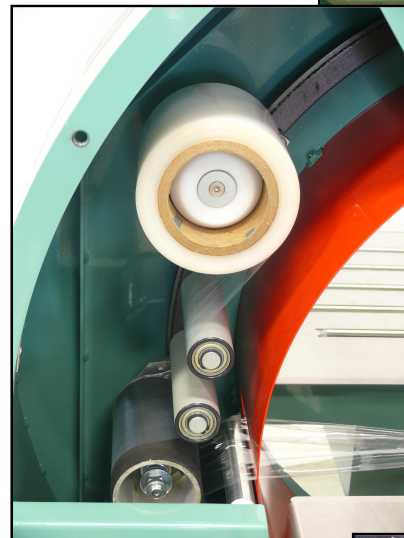

Wood Moldings

Brake Pads

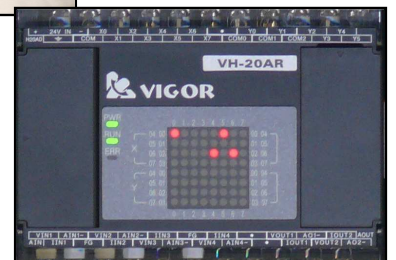

School Books

Metal Rods

3 Quick access for changing 3 or 5 inch wide rolls of film or adjusting film stretch

4 Vigor PLC for reliable operation

Delaware Valley Packaging Group
